

Here We Go Joe: How one family created a final home for a father with dementia with love, honor, and dignity.

Here We Go Joe is a true story inspired by 18 months that Cora Darrah spent assisting her husband and sister-in-law with the emotional decision of moving Joe-her father-in-law who suffers with dementia and cancer-from his home in South Carolina to an assisted living community on the coast of North Carolina. Cora shares from the heart to inspire other families dealing with the devastating effects of dementia. Relying on faith and hard learned lessons about living and dying with love and dignity, Cora shares her personal experiences, from relating to health professionals to managing family and even neighborhood relationships.
