

Puerto Vallarta Cruise Day-Trip Map

Don't explore Puerto Vallarta without the most detailed, pedestrian-friendly maps available. MAPA JEFF maps show the cityscape in a three-dimensional style that shows the lay of the land, as well as the most complete current information. This edition shows how to make the most of a day exploring the city - as well as the locations of most cruise-line package day trips within the regio. The street map shows major bus stops, taxi stands, ATMs that are attached to banks (and thus less risky), pharmacies, art galleries, public beach access points, and thumbnail portraits of notable landmarks. Instructions are provided to easily find less-populated beaches south of the center, to reach the remarkable Puerto Vallarta Botanic Gardens, and to hike 350 feet above the Malecon to the popular cross overlooking the city. Printed on durable water-resistant paper, the maps full unfolded size is 14 x 20 inches, and folded it is only 5 x 7 inches - easy to peruse and use while on foot. MAPA JEFF (Jeffrey F. Obser), a professionally trained journalist and editor, researched and developed this series of maps during several years of residence in the Puerto Vallarta area. They are not available in Mexico - best to have one in your bag when you board ship. Orders are filled and mailed on the day they are received. Delivery is by US post, normally in 3 business days.
