

The North China Lover: A Novel

Far more daring and truthful than any of her other novels, *The North China Lover* is a fascinating retelling of the dramatic experiences of Duras' adolescence that shaped her most famous work. Initially conceived as notes toward a screenplay for *The Lover*, this later novel, written toward the end of her life, emphasizes the tougher aspects of her youth in Indochina and possesses the intimate feel of a documentary. Both shocking and enthralling, the story Duras tells is so powerfully imagined (or remembered) that it ... lingers like a strong perfume (Publishers Weekly). Hailed by the French critics as a return to the Duras of the great books and the great days, it is a mature and complex rendering of a formative period in the author's life.
