

## American Short Story Masterpieces

This highly Acclaimed collection of short stories by American writers contains only the best literary art of the past four decades.

With a bias toward realism editors Raymond Carver and Tom Jenks have selected fiction that tells a story and tells it with a masterful handling of language, situation, and insight. But what is so special about this volume is that it mirrors our age, our concerns, and our lives. Whether its the end of a marriage, as in Bobbie Ann Mansons Shiloh, or the struggle with self-esteem and weight in Andre Dubuss The Fat Girl, the 36 works included her probe issues that give us that shock of recognition that is the hallmark of great art wonderful, absorbing fiction that will be read and reread for decades to come.
