

## Birdsounds of Nicaragua MP3, sounds and pictures

Characteristics of this MP3-CD: 253 bird species of Nicaragua; 253 recordings of birds; 2,5 hours of birdsounds; 300 excellent pictures of every bird; 8 useful maps; complete booklet in PDF; uses 160 MB on an MP3-player. Nicaragua is a little explored country in Central America, especially in the Caribbean lowlands. This MP3-CD has sound recordings of 253 bird species, from 12 different provinces of Nicaragua. Every recording is accompanied by a colourful drawing. The Birdsounds of Nicaragua MP3-CD can be played on any computer and MP3-player, but is best played on an iPod. Each species picture shows up when the sound is played on your iPod, iPhone or iTouch, along with extra information about the recording. For more information on MP3 and iPods see: MP3-CDS MADE FOR BIRDWATCHERS and iPod, the flagship of MP3-players. On the disc you will find a lot of extras like a beautiful booklet (in PDF format) with over 300 colour illustrations, the complete species list (Excel- and Word-files), descriptions of the recording locations, 8 useful maps, etc. As Nicaragua is neighbors with much-visited Costa Rica, this sound collection is also very useful if you are birding there. The CD also includes recordings of what are probably the first published on disc of the Nicaraguan Grackle (A regional endemic), the Central American Pygmy-Owl and the Black-capped Pygmy-Tyrant from Nicaragua.
