

Head for Mexico: The Renegade Guide

Head for Mexico was edited by Teresa Kendrick, the author of a highly respected guidebook to the Lake Chapala area of Mexico. Her years of experience in living and working in Mexico add an invaluable facet to this book. Bill Haslbauer is a retired Texan who, along with wife Neva retired to Mexico and offered to share their experiences with you. The definitive book on single women moving to Mexico was written by Karen Blue and she shares with you some of her unique insight into what all that entails. Mark Farley has spent years teaching English in placement service. Mark has an extensive network of people who provide information on an astounding variety of locations. and finally, Judy King, who has years of experience in the business world of Mexico and currently co-publishes with Blue, a newsletter about life in Mexico, has provided a touch of her clear-eyed but affectionate prose about her adopted country. In addition, if you don't find the answers to your questions in Head for Mexico the author provides a website and email address so you can contact him personally. This is the only book to offer the readers exactly the information they need in order to make an informed decision about a possible move to Mexico and it may well be the funniest book you read this year.
