The earliest known reference to baseball is in a 1744 British publication, A Little Pretty Pocket-Book, by John Newbery. It contains a rhymed description of base-ball and a woodcut that shows a field set-up somewhat similar to the modern gamethough in a triangular rather than diamond configuration, and with posts instead of ground-level bases. David Block discovered that the first recorded game of Bass-Ball took place in 1749 in Surrey, and featured the Prince of Wales as a player. William Bray, an English lawyer, recorded a game of baseball on Easter Monday 1755 in Guildford, Surrey. This early form of the game was apparently brought to Canada by English immigrants. Rounders was also

brought to the USA by Canadians of both British and Irish ancestry. The first known American reference to baseball appears in a 1791 Pittsfield, Massachusetts, town bylaw prohibiting the playing of the game near the towns new meeting house. By 1796, a version of the game was well-known enough to earn a mention in a German scholars book on popular pastimes. As described by Johann Gutsmuths, englische Base-ball involved a contest between two teams, in which the batter has three attempts to hit the ball while at the home plate. Only one out was required to retire a side. In 1845, Alexander Cartwright, a member of New York Citys Knickerbocker Club, led the codification of the so-called Knickerbocker Rules. The practice, common to bat-and-ball games of the day, of soaking or plugging effecting a put-out by hitting a runner with a thrown ball was barred. The rules thus facilitated the use of a smaller, harder ball than had been common. Several other rules also brought the Knickerbockers game close to the modern one, though a ball caught on the first bounce was, again, an out and only underhand pitching was allowed. While there are reports that the New York Knickerbockers played games in 1845, the contest long recognized as the first officially recorded baseball game in U.S. history took place on June 19, 1846, in Hoboken, New Jersey: the New York Nine defeated the Knickerbockers, 231, in four innings (three earlier games have recently been discovered). With the Knickerbocker code as the basis, the rules of modern baseball continued to evolve over the next half-century. SEE INTRODUCTION FOR MORE...
