

Basketry: Projects from Baskets to Grass Slippers

In this strikingly beautiful yet practical book, the craft of basketry becomes an art that captures the essence of nature. Six basic methods incorporating traditional and contemporary methods allow novice or experienced basketmakers to understand and appreciate the interplay between natural materials, technique and form. Fully illustrated with drawings and black and white and color photographs, Basketry features easy-to-do projects like baskets made from willow branches and braided cattails, a corn husk mat, a bamboo screen, etc. Exclusive use of natural materials adds to the enjoyment of experimentation and creativity that have led to the renewed popularity of this classic art form.
