

## Bonnie Ketty Gordon: Book One of the Huntingdon Chronicles

This is the fifteen-century story of Lady Katherine (Ketty) Gordon, a beautiful Scottish princess and her husband, who claims to be Richard, the English Duke of York. However, the English king believes he is a Flemish boatman's son named Perkin Warbeck. He and his beautiful Ketty--along with their twin sons--invade England to take his rightful place as king. When the little family is captured by the evil Tutor king, Henry VII, these children--like the little princes in the Tower--also disappear from the pages of history.
