

Crown Of Stars: Crown of Stars # 7

In the wake of the cataclysm many new alliances are forming even as old ones dissolve. As Sanglant struggles to legitimize his own leadership, the Aoi are carrying out random attacks-while implicating him as their leader. Stronghand has begun a march of conquest into the heart of Sanglants realm. Adelheid and Antonia have made an unholy alliance. And Sabella and Duke Conrad are moving to seize Sanglants crown. Cultures, religions, and races are clashing in what will be the ultimate struggle for control of this strange new world.
