

Surrogate Evil: A Lee Nez Novel (Lee Nez Novels)

Its frustrating for local law enforcement to come up against a piece of scum like Newton Glover. Hes dirty as hell, everyone knows that--breaks into and vandalizes his neighbors homes; cheats and steals from everyone; folks suspect he deals drugs and porn. Hes even killed a man and gotten away with it. He gets away with all of it, hinting that he has a secret government background and that hes protected by the Powers That Be. Glover may finally have gone too far. Hes suspected of kidnapping a young teenage boy to use for child porn and a pedophile sex-ring. Theres no proof, but this time, Albuquerque police are determined to nail Glover to the wall. Lee Nez, a Navajo state police officer, and Diane Lopez, an FBI agent, go undercover in Glovers trailer park. Lee and Diane find that their growing attraction for each other is heightened by their posing as husband and wife, but do not allow that to distract them from their mission. They soon learn that not long ago, Glovers neighbors tried to take the law into their own hands--they dragged Glover from his home and beat him to death, leaving him in a shallow grave. To everyones shock, a few days later Glover reappeared with not a mark on him. Lee and Diane are no strangers to the supernatural--Lee is a Navajo vampire and Dianes last FBI partner was killed by a werewolf. Whatever Glover is, theyll deal with it. When a second child goes missing and clues link her to Glover, Lee and Diane know they are running out of time. Glover may be some kind of un-dead, but soon those children will be really dead, or worse.
