

Dr. Beachs Survival Guide: What You Need to Know About Sharks, Rip Currents, and More Before Going in the Water

Designed for beachgoers, this guide is filled with surprising information about how to avoid dangers both large and small while at the beach. Stephen Leatherman (otherwise known as Dr Beach) introduces the gamut of beach hazards, from sharks to rip currents to jellyfish, revealing which dangers should be of greatest concern and how best to minimize their risks. His scientifically sound advice, interspersed with facts and anecdotes, should make this work a useful reference for the travellers and vacationers who visit the ocean shore every year.
