

The Buried Circle

An intriguing literary thriller, *The Buried Circle* is a gripping blend of fact and fiction that is impossible to put down. The village of Avebury is one of the most mysterious places in the English countryside. Surrounded by ancient standing stones, crop circles and burial mounds, this is a place where all is not as it seems. Weaving fact with fiction, Jenni Mills' second novel is set in a haunted landscape where the past breaks through into the present. In 1938, the archaeologist Alexander Keiller, a millionaire playboy with a passion for witchcraft and ritual magic, plans to reconstruct Avebury's five-thousand-year-old stone circle. Frannie Robinson and her boyfriend Davey are among those who fall under his dangerous spell, and are nearly destroyed. Seventy years later, Frannie's granddaughter India sets out on her own quest to discover the truth. But digging up the past unearths the unexpected, and may prove lethal.
