

Evidence of Murder LP: A Novel of Suspense (Theresa MacLean Novels)

Lisa Black, a former forensic scientist whose electrifying thrillers bear the indelible mark of authenticity, brings us Evidence of Murder a riveting tale of crime and detection sure to enthrall fans of Patricia Cornwell and TV's C.S.I. New York Times bestselling author Tess Gerritsen calls Black's new novel, another tense and unputdownable thriller. She is, quite simply, one of the best storytellers around. Evidence of Murder delivers that and more as returning heroine, forensic investigator Theresa MacLean, looks into the death of a young mother that may have terrifying consequences for an innocent child.
