

Away From Home

This book has been written to help people from the age of 60 to think seriously about their future. This is not an easy task, as somehow we mortals are endowed with the feeling of immortality. Whether it is the freedom of travel, college enrollment, or the confinement of a hospital room, seniors have a keener sense of the effects of being away from home, where they usually feel most secure, and how this shapes their outlook on life. When you can still enjoy life's freedoms and do not have to be dependent on others, this is surely one of life's greatest blessings. Two stories from the author's experiences are included in this book, *Away From Home*, to help the reader gain a new perspective on this topic.
