The Lost World by Arthur Conan Doyle
The Lost World is a novel released in 1912 by Sir Arthur Conan Doyle concerning an expedition to a plateau in the Amazon basin of South America where prehistoric animals (dinosaurs and other extinct creatures) still survive. Edward Malone, a reporter for the Daily Gazette, goes to his news editor, McArdle, to procure a dangerous and adventurous mission in order to impress the woman he loves, Gladys Hungerton. He is sent to interview Professor George Edward Challenger, to determine the truth of his claims about his trip to South America. After a fight with Malone, Challenger reveals his discovery of living dinosaurs in South America, and invites Malone, along with Professor Summerlee and Lord John Roxton, an adventurer who knows the Amazon, on a trip to prove his story.
