

Fairy Houses ... Unbelievable!: A Photographic Tour (The Fairy Houses Series)

Conducting a unique photographic tour, this book explores a variety of whimsical fairy houses designed and built by gardeners, artists, nature lovers, and children. It pictures amazingly diverse miniature homes that have been constructed with natural materials, revealing the woods as a veritable treasure trove. Featured creations include transforming milkweed pods into fairy beds, producing tiny dishes from acorn caps, crafting a woodland library of pint-sized books from birch bark, and constructing a fairy artist's studio inside a pumpkin. This collection invites one and all to be transported to a world of enchantment while bringing out the architect in adults and kids alike.
