

## Life Swap

Take an administrative snafu, a bad break-up, and what shall heretofore be known as The Hot-Tub Incident, and you've got two thoroughly unprepared sophomores on a semester abroad. For American party girl Tasha, an escape to tweedy Oxford may be a chance to ditch her recent fame as a tabloid temptress, but wading Uggs-deep in feminist theory is not her idea of a break. Meanwhile, the British half of the exchange, studious control-freak Emily, nurses an aching heart amid the bikinis and beer pong of U. C. Santa Barbara. Soon desperation has the girls texting each other tips - on fitting in, finding love and figuring out who they really are. With an anthropologist's eye for cultural detail and a true ear for teen-speak, exciting new novelist Abigail McDonald crafts a very funny, fast-paced, poignant look at survival, sisterhood, and the surprising ways we discover our true selves.
