

Man, I Hate Cursive: Cartoons for People and Advanced Bears

No one does comics like Jim Benton. His creativity and artistry have led to the monster success of *Its Happy Bunny* and *Dear Dumb Diary*, and his standalone strips have topped Reddit's comics section for years. Jim Benton's first cartoon collection was nominated for an Eisner. This new volume collects more of Jim's most popular strips from Reddit, shining a light on talking animals, relationships, fart jokes, and death. From whimsical to cutting, from gross to poignant, Benton's grasp of the form is on full and hilarious display.
