

Stupid Cupid

Laugh-out-loud funny and achingly true to life, this is a book about that universally familiar phenomenon - when you lose something, you want it more than you ever did when you had it. This book is about obsession. Its about not being able to see the wood for the trees. Specifically, its about Hat Grant, a gardener, who gets dumped by her fiance Jimmy Mack, four weeks before their wedding. She resolves to keep going with the wedding plans regardless - telling no one, except her three best friends, Gerry, Mish and Priscilla, the truth. Meanwhile she moves heaven and earth to get Jimmy back. Hat is determined to have her day if its the last thing she does.
