

# The Social Contract (French-English Text) (Rossetta Series) (French Edition)

Du contract social was written by Jean-Jacques Rousseau in 1762. In it Rousseau sets about establishing the prerequisites for the modern democratic state. Its impact is so deep and the insight so revolutionary that the term social contract is now an established part of political philosophy. Here Rousseaus French text is reproduced side by side with G. D. H. Coles classic English translation. Lhomme est ne libre, et partout il est dans les fers. Man is born free; and everywhere he is in chains.
