

Naked Brunch

An upmarket, signed and numbered edition of the new novel from Sparkle Hayter. Annie Engel is content as a secretary, even though her boss chews her out on a regular basis for his own errors and the man she put through law school left her for a young lawyer. So she is horrified when she discovers she's been running loose during full moons ripping out the throats of wealthy men and having bestial sex with another wild werewolf. Can she resist her urge to kill? Can two werewolves find love while the police, the media, her psychiatrist and maverick hunters are closing in?
