

Marginal Boundaries - Live Like a Local in Cancun, Mexico

Cancun. To most travelers this is one of the premier beachfront destinations on the planet. White sand stretching as far as the eyes can see. Brilliantly turquoise-blue waters. And while its true that there are more all-inclusive 5-star resorts in Cancun than there are in Las Vegas, there is so much more to Cancun than just the Hotel Zone and the all-you-can-eat buffets and pool-side bars. There is a living, breathing city beyond the carefully manicured and manufactured visage that is the tourist area, and it is here where the heart and soul of Cancun beats and where the locals, as well as us, actually live. If you do a Google search of the city you will only ever find information about the beaches, the Hotel Zone, Spring Break parties and the all-inclusive clubs and resorts that make up the tourist section. What the vast majority of people dont realize is that there is a living, breathing city behind the hotels and resorts. This city is where we live, and its where hundreds of thousands of normal, middle class, everyday Mexicans live as well. Its a thriving hub of culture, industry, infrastructure and a colonial atmosphere that is completely ignored by the search engines. Our guidebook is dedicated to showing you the real Cancun, the city that exists beyond the walls of the all-inclusive resorts, the restaurants and the plazas, the parks and the theaters, the cultural centers and the apartments, the condos and the off-the-beaten-path beaches, and the life that exists here on the ground. The Mexican way of life. These are all personal recommendations from Cristina and myself after more than four years of living here. If you want boots-on-the-ground information on the REAL Cancun, not the Hotel Zone, and how to get the most out of your money in the time you have hereno matter if its two weeks or two yearsthis is the ultimate guidebook youve been waiting for.
