

Raising a Thinking Preteen: The I Can Problem Solve Program for 8- to 12- Year-Olds

In her bestselling *Raising a Thinking Child*, Myrna B. Shure introduced her nationally acclaimed I Can Problem Solve program, which helps four to seven-year-olds develop essential skills to resolve daily conflicts and think for themselves. With *Raising a Thinking Preteen*, Shure has tailored this plan especially for eight-to twelve-year-olds as they approach the unique challenges of adolescence. The preteen years are often the last opportunity for parents to teach their children how to think for themselves. This book is the only source with a proven plan to help them do just that.
