

Land of the Radioactive Midnight Sun: A Cheechakos First Year in Alaska

In New York City, a Cheechako (chee CHA-ko) would be the kid who just fell off the turnip truck. No street smarts. A pink windbreaker. A subway map sticking from his back pocket...In Alaska, a Cheechako is even easier to spot. Hes the guy with his tongue stuck to a metal pole. A tenderfoot. A greenhorn.Land of the Radioactive Midnight Sun is the story of Lt. Sean Michael Flynn as he tries to survive his first year in Alaska. With romantic notions of Jack London and Bush piloting, Lt. Flynn requests a transfer to Eielson Air Force Base outside of Fairbanks, Alaska. He is a bit unnerved at how easy the transfer goes through.From a rugby game on a frozen river to living across from Santas Village to random moose attacks to soaring over the Bush in an F-16, Land of the Radioactive Midnight Sun is a hilarious trial-by-many-errors account of what it takes to become a true Alaskan.
