

The Official Parents Handbook: Spare the rules, spoil the child!

Parents! Need help raising your child? Checkout this humorous handbook that captures motherly advice and provides words of encouragement to parents young and old. It is the authors intent is to share the unwritten rules from mothers everywhere. Namely, if you really listen to what your mother always said you will hear the unwritten rules of parenting. Over the past year, the author has been asking people from all over the country to share rules from their childhood. The result of that sampling and her own entertaining writing style is presented in the pages that follow. You will enjoy the hilarious walk down memory lane and the laughable, tongue-and-cheek presentation of what mothers everywhere are saying that their children ought to do! The author, reflecting on her child-rearing years, has captured the ludicrous elements of parenthood. Her absurd hoax helps us to reflect upon the thorny and serious issues of raising intelligent and loving children with strong moral character. Parenthood is a full-time job and should be performed with the same level of diagnosis, preparation, study and commitment as brain or open-heart surgery. This book packs a powerful punch, with a mixture of reality and humor. It eases the pain, allowing us to laugh at ourselves along the way. Testimonials Always said the last people who should bring up kids are parents! Your observational skills are spot on, that and the humorous perspective is a sure winner for me! Famlavan, Author Museum of Old Beliefs Love it... very funny... just my kind of thing! I find humor connects well with my children... it eases the situation that could otherwise get out of hand! As a family we have a laugh & our own family jokes & rules. It works. You made me smile. C.E. Uptown, Author In the Moment The premise is wonderful; the presentation is a delight to read, informative and humorous. Chuck, Author Paperboy

Adventures This book is so sweet, well written and funny. I want to pick it up like it were a teddy bear and give it a hug. Think its a great idea! Deloris Collins, Author Dark Souls The Parents Handbook is full of useful material humorously presented. I know quite a few of the children like the ones youre talking about here.
