

The Spiritual Side of Sarah

Patricia Paris second novel, *The Spiritual Side of Sarah*, is a compelling story of a southern woman who learns very early in life just how easy it is to get what she wants. Sarah ventures into courtship and marriage in much the same way that the spider weaves its web and her extraordinary journey into fundamentalism allows the reader to see a side of the Deep South rarely seen by mainstream America. Readers will find Sarah conniving, compelling, and wanton. Set in the 40s and 50s, *The Spiritual Side of Sarah* is a must read for the nostalgic and those who like books about towns in the old South and the people who lived in them.
