

## Dont Make Me Act A Fool

Have you ever been so angered to the point you're about to explode. The stress is building up, and you're about to slap anybody who gets in your way. Your parents are driving you crazy; your sister is a pain in the neck, and your lying boyfriend should have gotten the boot months ago! The only sane person in your life is your best friend, but you both are about to drive each other crazy if you have to listen to each other's problems just one more time. All I can say is keep pushing me to the edge, and I'm About to Act A Fool!
