

International Teaching

Note that this is a short eBook for just 99 cents. Highly recommended to anyone considering international teaching. Polished. Professional. Comprehensive. Teaching overseas has given me job satisfaction, financial security, and adventure. Ive been teaching in international schools for more than twenty years and Ive loved (almost) every minute. Ive taught amazing kids, worked with inspirational colleagues and enjoyed adventures in Europe, South East Asia, the Himalayas and in the Indian Ocean. I was stuck in a rut back home. I had mortgages and was bored with my job. And it was stressful. So I quit. I left my safe job and safe country with adventure in my sights. Ive trekked in the Himalayas, skied in Zermatt and Stubai and Colorado, swum in the Adriatic, drunk pina coladas in Mauritius, been hugged by kids in Turkey, and Ive played cricket with kids in Pakistan. Teaching overseas put me in good locations for sensational holidays that I could afford. Its just a contract. It doesnt mean a thing. That was the General Manager of the first school in which I taught. Were all family here, he added. It was a good lesson to learn early on. The tax advantages, the sublime culinary adventures and the adorable kids all come at the cost of union protection, health & safety laws and the ease of my local language. Its not for everyone and so before you make a big mistake - which could be leaving home or staying at home - read my little book. Ships are safest in the harbour, but thats not what they are built for. Thats what gave me the courage to leave my safe home and teach in Istanbul. Ive lived and worked in Europe and Asia and attended teacher training sessions in Macau, Spain, Dubai, Germany, England, Scotland, Bahrain, Sydney and Czech Republic. Ive seen a lot. Eaten a lot. Laughed a lot. Cried a little bit. And learnt a lot. I think I should share a lot of what

Ive learnt. And thats what this small eBook is - the simple things Ive learnt about finding and loving international teaching jobs.
