

The Bionic Woman Volume 1

After Jaime Sommers suffers a horrific parachute accident, scientists rebuild her using similar cybernetic parts to those that turned her boyfriend Steve Austin into the Bionic Man. The doctors replace her legs, her right arm, her ear, and more! Now, Jaime has been rebuilt to be faster and stronger... but tragically, much of her memories are missing. Worse yet, the recipients of earlier bionic enhancements are systematically being slain around the globe for their parts... and the black market profiteers responsible now seek the latest upgrade: the Bionic Woman herself!
