

# The Continuity Girl

Meredith Moore is the perfect continuity girl. An on-set script supervisor, she is the error catcher, the one who makes sure every take matches seamlessly with the one that came before it. But when Meredith wakes up on her 35th birthday with a sudden acute yearning for a baby, her personal sense of continuity is thrown into flux. Determined not to marry, she impulsively flees humdrum Canada and heads to London to reunite with her notoriously eccentric mother, Irma, and accept a job on a famous producers film. Her covert plan: find a man with good genes, seduce him, and have a child--all without him knowing, of course. But in her quest to become pregnant on her own terms, she will accidentally discover a web of secrets that will change the way she envisions both her professional life and the nature of love.
