

The End League #8 (The End League Vol. 1)

Black, Soldier American, and Arachnakid, the last remaining heroes on earth, are trapped between the armies of three villainous masterminds and their war for control of the planet. With the Hammer of Thor finally within their grasp, one hero will obtain it, one will be proven unworthy, and another will turn against the team! Fan favorites Rick Remender and Eric Canete bring you the earth-shattering finale to the second arc, where everything is flipped upside down, giving birth to a new status quo for our small band of surviving heroes!
