

## The National Museum in Warsaw: Directors Choice

The National Museum in Warsaw, one of the largest museums in Poland, is home to a plethora of striking objects: from a collection of Chinese art comprising around five thousand objects to the Faras Gallery, home to Europe's largest collection of Nubian Christian art. Polish paintings from the sixteenth century onwards also feature, hung alongside paintings reclaimed from Nazis. In 2012 the permanent galleries were rehung; paintings are now arranged thematically rather than chronologically. Visitors can compare Italian with Flemish, Polish with German art while wandering through rooms of landscapes, cityscapes, biblical scenes and more. The Directors Choice is an intimate insight into a vast collection, unravelling the story of the museum and its artworks.
