

The Tree Bride: A Novel

National Book Critics Circle Award-winner Bharati Mukherjee has long been known not only for her elegant, evocative prose but also for her characters--influenced by ancient customs and traditions but also very much rooted in modern times. In *The Tree Bride*, the narrator, Tara Chatterjee (whom readers will remember from *Desirable Daughters*), picks up the story of an East Bengali ancestor. According to legend, at the age of five Tara Lata married a tree and eventually emerged as a nationalist freedom fighter. In piecing together her ancestors transformation from a docile Bengali Brahmin girl-child into an impassioned organizer of resistance against the British Raj, the contemporary narrator discovers and lays claim to unacknowledged elements in her American identity. Although the story of the *Tree Bride* is central, the drama surrounding the narrator, a divorced woman trying to get back with her husband, moves the novel back and forth through time and across continents.
